PROFESSIONAL SUMMARY

Software Developer with a background in Software Engineering Technology and professional experience as a Mobile Developer and Web Programmer. Experienced in developing applications, backend services, REST APIs, and performing debugging and maintenance using Flutter, Laravel, FastAPI, and MySQL. Comfortable working both independently and as part of a team throughout analysis, implementation, testing, and feature development based on user requirements. Interested in continuously expanding my skills in software and application development.

TECHNICAL SKILLS

- **Frontend Development:** React.Js, Next.Js, Tailwind CSS
- **Mobile Development:** Flutter, Dart, GetX
- **Backend:** Laravel, FastAPI, RestAPI
- **Database:** MySQL
- **Tools:** Android Studio, VS Code, Git, Figma

PROFESSIONAL EXPERIENCE

Mobile Developer - PT.Jaga Anugrah Giat Asa **Dec 2024 – Jan 2025**
Pekanbaru, Indonesia
- Developed features for a Flutter-based Asset Management application based on business requirements.
- Integrated the Flutter application with a Laravel backend through REST APIs.
- Implemented GetX for state management, navigation, and separation of application logic from UI.
- Applied MVVM and Clean Architecture principles to maintain a structured and maintainable codebase.
- Built reusable UI components based on provided wireframes and designs.
- Performed debugging and feature maintenance during development and testing.

Web Programmer - CV.Mediatama Web Indonesia **Oct 2025 – Apr 2026**
Padang, Indonesia
- Developing frontend features for the Ahra Engineer website
- Working on a Point of Sales (POS) web application
- Implementing user interfaces and application features based on business requirements
- Collaborating with the team to ensure the application runs as expected

FEATURED PROJECT

TAlign - AI-Based Final Project Title Recommendation **2025**
Flutter · FastAPI · Next.Js · Random Forest
Developed a mobile and web-based application for final project title recommendation and evaluation. Built the Flutter mobile application with GetX, developed the admin dashboard using Next.js, and implemented the backend and machine-learning components with FastAPI and Random Forest.

Web Point Of Sales Diata **2026**
Laravel
Developed backend logic and services using Laravel, including user administration, access control, capital management, order tracking, daily cashier reports, and cash-difference monitoring.

Ahra Engineer Web Company Profile **2026**
Laravel
Developed a company profile website as part of a team, translating UI designs into responsive web interfaces using Laravel Blade and Bootstrap.
